## Commodore's Corner

**John Moldovan (RJ)**

Commodore

I hope everybody had a good time at the Commodores Ball, I know I did. The Band was excellent and the food was very good. Kudos to those that made it possible, you know who you are.

It is official. The marina changed hands this month. Bob from E 55<sup>th</sup> Marina took over starting at the beginning of this month. I don't have any more details. I just hope that this transition will be a smooth one for our club. As soon as I get a chance to talk to Bob I'll let you know all the little details. If you have any questions that you want me to ask Bob please let me know.

I am also looking for a Publicity Director. This is just a fancy name for whoever wants to edit and publish this very own Newsletter. All you need is a computer and Internet and I will show you the rest. If anybody wants to help me with this please contact me at [news@embc-cleve.com](mailto:news@embc-cleve.com) or just show up to our monthly meeting.

YES, we do meet during the cold months on the second Wednesday of the month at Zone Car at 1303 West 58<sup>th</sup> Street. We always have a good time, considering the bar is located outside the meeting room. The club provides the food, so it turns into a real party. All you have to do is show up and enjoy.

For more information about the Club and all the activities that we plan you can always visit our web site at [www.embc-cleve.com](http://www.embc-cleve.com)

## Secretary Escritoire

**Nina Gamin**

Secretary

After over almost two months of constant heavy snow and cold, cold temperatures, Dan and I headed out in the wee morning hours of St. Patrick's Day in search of spring. We started during that surprise snow storm (remember?) and we drove straight south, not stopping till we found fifty degrees.

The journey was a difficult one, reminiscent of the early pioneers. We had to brave near blizzard conditions in the mountains of Virginia. Yet we could not stop in our quest to bring you, our friends, sunshine and warmer weather. By the time that was all over we were in Myrtle Beach, South Carolina. Even then, we had to force ourselves, with gritted teeth, to wade ankle deep in the ice cold ocean at Myrtle Beach.

Our tenacity paid off as we coaxed the sun to shine brilliantly and the temperature to rise day by day till a week later it reached 88 degrees. We knew we'd lose a few precious degrees on the journey north; Still we felt our work was done. We brought all that nice weather back north so that we could get this boating season started already. It was a hard job but someone had to do it.

So from us to you, "You're welcome. It was our pleasure. Welcome Spring! Now let the games begin!"

## Web Stuff

Submitted by Buck Wilke

Yeah Baby April, we're getting closer,

The following is TRUE:  
Information, please.

Program these numbers into your cell phone. You're going to save a lot of money.

This is the kind of information people don't mind receiving, so pass it on to your family and friends. This works on your home telephone as well!

Cell phone companies are charging us \$1.00 to \$1.75 or more for 411 information calls when they don't have to.

Most of us do not carry a telephone directory in our vehicle, which makes this situation even more of a problem. When you need to find a phone number just use either of these two "information" numbers.

Here are numbers that work. All that you are charged is air time, no fee.

800.411.7283 or 800.373.3411

This is a web only special. Those who receive their newsletters via snail-mail, eat your hearts out. Click this link you will not be disappointed.

<http://www.lockergnome.com/nexus/usrbingeek/2007/02/28/most-ridiculous-invention-ever/> I just don't know whether to get one or two.

Pollution, who cares? The EPA is trying to lower the reporting standards and keep the info from the public. For some reason this doesn't shock me one bit. Here is a site that can keep you current with what's going on. This site does show what pollutants are affecting any given area and how they are doing so. Go ahead type in your zip code.

And in the same vein here is a link to more "green stuff". This is an informative site with a lot of links to articles of interest. <http://hugg.com/>
