I hope everyone is enjoying the heart of the boating season as much as I am. In this past month the club has sponsored The Taste of the Marina (with an open Jam Session for musicians), the Annual Poker Run (we boated to Fairport Harbor on the Grand River), the Ox Roast (our free event for the members), and the impromptu Browns Tailgate Parties (just started last Saturday for the Buffalo game).

The strength of a Club like ours is the involvement of its members in shaping the activities and events for the benefit of all, and it definitely shows. I thank each and every one of the many that have come forward and volunteered their time or services for our events. If you would like to be a part of this elite group, please consider helping out with our future events by contacting myself, any club officer, or Sherry

If you missed the Ox roast you missed another great event. Thanks to all that showed and a thank you to all that helped clean up before leaving..

The next big to do is the Dan Zola 18 piece band that is held on Labor Day weekend. So come on down and join in on the fun. Hope to see you there!

The next boat club meeting is September 13. This is your boat club so join us and get involved.

30 miles in 10 hours. That's about 3 miles an hour. That's how long it took me to get to Fairport Harbor. Nice trip though, in spite of the wind blowing from NE and waves kicking up at about 4 feet. If there is one thing that I have learned from this trip is this: Next boat I get WILL have a roller furling. I am not saying that sitting on the bow with waves crashing above my head while trying to handle my 150 genny is not fun, but a roller furling would have been a lot of help, especially when single-handed. And speaking about my next boat, I am putting my boat up for sale towards the end of the next month. It will probably be up on Ebay so if you are interested let me know...

Well, Edgeworld did not happen last weekend, but it's not too late. Keep an eye on the weather and we will try again. Actually, the weather wasn't the only reason why Edgeworld did not happen. Can you say: Cornhole. That game is just so much fun... ☺

'Till next time mates...

Happy September all,

How about a cup of coffee? National Geographic has an informative site telling all about one of the favorite drinks on the planet. I know that we go through a couple of pots a day. Find out about the history, the legends and all those different roasts.

This is just a quick note to rehash something that I brought up in the past. If you are e-mailing an order in for an event, please ask for a receipt. This way you will be certain that your message has been opened and your order has been placed. Sometimes e-mails get lost in the shuffle and do not reach the intended recipient.

There are three ways to contact us with your orders:

1. See us at the marina.
2. Call us on our cell phones.
3. Send us an e-mail.

Take your pick, the choice is yours. Just try to do it in a timely fashion.

Boat U.S. recently took a close look at insurance claims to identify the myriad reasons why outboard-powered vessels sink. Their findings can help you and other boat owners protect their boat. The research confirmed that most boats sink while tied up at the dock, outnumbering sinking-while-underway claims four-to-one. Nearly half the boats that sank at the dock were victims of heavy rain or snow.

Here are the results:

Sinking At The Dock

Rain/snow 47%
Underwater Fittings 20%
Above the Waterline Fittings 10%
Poor Docking Arrangements 9%
Water Over Gunwales/Transom 9%
Other 5%

Sinking While Underway

Water Over Gunwales/Transom 32%
Livewell/Baitwell Plumbing 20%
Drain Plug 16%
Struck a Submerged Object 12%
Other 12%
Construction 8%

See ya for the "Big Band" and the clambake.
